# Beyond the Dune Sea

There is a fifth dimension beyond that which is known to man. It is a dimension as vast as space and timeless as infinity. It is the middle ground between light and shadow, between science and superstition, and it lies between the pit of man’s fears and the summit of his knowledge. This is the dimension of imagination. This is Beyond the Dune Sea.

For this band that happened accidentally, just as some high school friends started jamming together after some years had gone by, there are no limits. It isn’t a mad experiment that many bands seem to comfort themselves within the trend, but rather a series of jams that turned out spectacular. And their debut offering, the self-titled album released by Abridged Pause Recordings, will let you hear just what this new wave of post-rock can bring. Beyond the Dune Sea is getting ready to play some intense live shows very soon and drop their second album, so keep a look out on them!
