

Endless Fight

Endless Fight was formed in 2004 in Winkler, Manitoba (later stapled as a Winnipeg band, not sure if they moved there or only because it was close to Winkler). They had a demo, which i unfortunately never heard. They then self-released their ep "Call on Defeat", and started to tour the west coast of Canada. They were picked up by Spook City Records, and released their full length "Back to the Front" in 2006. They were then set to tour through-out the states, but were denied access twice. This set the band back quite a bit, and some months later they had broken up.
