Follow Vision Éternel On Spotify

Vision Éternel is now on Spotify! After years of neglecting the importance of this platform, all five Vision Éternel EPs are now on there for streaming and buying. Three of these EPs were released through Abridged Pause Recordings. Spotify has come a long way since the days of Last.fm, so it’s all about re-building the fan base on this new platform. In order to verify the band’s page, Vision Éternel needs to reach 250 followers. So please, if you use Spotify, either with a free or paid account, “Follow” Vision Éternel on there and show your support for the band!

You can click this link to be taken directly to the Spotify site, or use the embeded player bellow.
