New Vision Eternel Merchandise Available

Happy new year!

Vision Eternel compact discs and t-shirts available.

When Abridged Pause Recordings released the boxed set "*An Anthology Of Past Misfortunes*" in 2018, a handful of "Promotional Press Bundles" were made. These were previously reserved for members of the press, but since the boxed set is sold-out, we figured it was a good time to make the left-over press-copies available to the public. There are only 8 copies of each EP left (which were originally reserved for 8 press packages).

These are available either individually or as a "Limited Edition Promotional Compact Disc Bundle". You can purchase these compact discs at $3 a piece, or as a bundle (all five) for $10 (plus the moderate cost of shipping) on Abridged Pause Recordings' Bandcamp page.

So if you wanted Vision Eternel's full back-catalog physical discography, this is your chance. Or, if you only liked one or two of Vision Eternel's releases, and can do without the rest, then get the ones you want! These will be sold on a first-come, first-served basis, so if any EPs are purchased individually, the amount of bundles available will decrease as well.
*Please note that if you own the boxed set, you don't need these; you already own practically the same content (plus more). The only difference is that the press copies come with different liner notes and the compact discs have the titles hand-written on them instead of being fully painted a solid colour.

Also, Vision Eternel t-shirts are finally available for direct

purchasing on Bandcamp. Previously, that merchandise was only available through Vision Eternel's webstore, but having the apparel available on Bandcamp makes it convenient for everyone. Check out the t-shirts designed by Jeremy Roux and Christophe Szpajdel, and feel free to grab a shirt at the same time as a CD!

Abridged Pause Recordings has more things coming up:

Abridged Pause Recordings is already preparing to release new merchandise for Vision Eternel's upcoming extended play "*For Farewell Of Nostalgia*". A limited amount of compact disc press kits will be made. These "Advanced Compact Disc Editions" will feature an exclusive artwork and die-cut packaging (different from the standard version to be released to the public). A couple of music videos are going to be made and it is also very likely that a couple of new t-shirts, and possibly a hoodie, will be made in promotion of the new extended play.

You can read more about this in Vision Eternel's press release.
