Sky Flying By

Sky Flying by has been crafting its own style of post-rock since 2002. It took many years until songwriter David Palmer was happy enough with the results to start sharing it with the world. Several self-released albums and EPs later, the band eventually teamed up with Flesh And Bone Records for a cassette tape release in 2014.

For Sky Flying By’s debut with Abridged Pause Recordings, Palmer will be delivering an exclusive song. This emotional piece will appear on Abridged Pause Recordings’ forthcoming Various Artists compilation, “Billowing Tempestus”, due out in early 2016.
